STATINTL

MEMORANDUM FOR: [REDACTED]

SUBJECT : Jump Pay

In connection with the jump pay cases we considered yesterday, when you look at the Agreements of Understanding with the officers concerned, make sure it is clear that they must qualify in all respects for jump pay in the same manner as would be required by their Services. This includes proper qualification as a trained jumper. In this connection, were they trained by the Service before they came to CIA, or have they been trained under our program? If the later, do they know whether our program is such as would qualify them in the eyes of their Services?

You may have checked this with [REDACTED] but if not, it is something we should look into.
